

# Seeing Beyond The Surface

Discovering How Diversity Makes Us Strong

This 4-minute video provides a brief overview of the U.S. Army's mission for diversity. After viewing, you will understand how the Army defines diversity and why it makes the Army a stronger, more adaptive Force - both internally and on missions around the world.

Soldier or Civilian, it is an Army where success is not determined by your background, culture, ideas or beliefs, but rather on what's inside... the drive, the determination, the courage.

Understand why it's important for men and women of different backgrounds, cultures, ideas and beliefs to know that they are valued members at every level within the Army.

See how this young female Soldier proves that heroes come in all different shapes, sizes, colors and genders.
